

The “Norwood” Rental Casket for Cremations

This casket is available for families who wish to have a viewing prior to cremation.

The exterior shell of the casket is solid Oak with a dark hand-rubbed finish.

The interior is a cremation container fitted with a cream crepe casket interior.

Following services, the cremation container houses the deceased for the cremation process while the hardwood

shell is re-used again. This enables a family to have a formal viewing without the expense of purchasing a cremation casket. This also allows for the option of a funeral service outside the funeral home as the casket is fully functional for transportation.

The “Norfolk” Cremation Casket

This casket is constructed of fiberboard laminated pine with an Ivory Capri interior.

It is one of the included casket options in our Traditional Funeral Tribute Cremation package.

The “Longley” Cremation Casket

This casket is constructed of fiberboard laminated Cherry with a blue deluxe crepe interior

It is one of included casket option in our traditional Funeral Tribute Cremation package.

The “Stafford” Solid Cherry Cremation Casket

This casket is constructed of Solid Cherry wood in a semi-dull amber finish with a Rosetan Alpine interior.

This casket can also be used for burial if desired with the main difference being that this casket has few metal fittings and is more environmentally “friendly”.

The “Oakdale” Solid Oak Cremation Casket

This casket is constructed of solid Oak wood in a Dull Fawn finish with a Rosetan Alpine Crepe interior.

This casket can also be used as a burial casket. It has few metal fittings and is environmentally “friendly” and popular with families wishing a more “green” alternative.

Orthodox Half Couch Cremation/Burial Casket

This casket has traditionally been the mainstay choice of the orthodox Jewish community but in recent years has found popularity as both a “green” casket and a cremation casket with its simple, clean form. It can be used for either burial or cremation and is very environmentally “friendly”.

The “Pinewood Box”

For those individuals who want the ultimate in simplicity, or an “Old West” feel, this casket is perfect. It is a simple pinewood box with no interior. The pieces are connected with dowels, rather than nails so there is no metal or finish material of any kind, making this casket truly “green”.
